

KAMBAKU TOURS

NAMIBIA SAFARI

8 DAYS NAMIB – SWAKOPMUND – DAMARA LAND – ETOSHA

DAY 1 Off you go from Windhoek International Airport to the Namib Desert, the place which gave Namibia its name. The Namib Naukluft National Park covers an area of 50 000km² in the southwest of the country, including the famous Sossusvlei. At some five million years of age, the „place where there is nothing“ – according to the Nama people – is the oldest desert on earth. It is 2000km long from north to south and some of its seemingly endless sand dunes reach up 350m into the sky. With an amazing view from your dinner table you recover from your journey.

DAY 2 Early in the morning you leave your lodge at the edge of the Sesriem Canyon to enjoy a memorable sunrise on top of a dune. On your way back you visit the Dead Vlei, a salt pan surrounded by sand dunes, where bleached camelthorn trees stand eerily. After breakfast you leave the park and spend the afternoon in the semi-desert close by the Gaub and Kuiseb canyons. Before dinner a sundowner tour includes spectacular views over the mountains, gorges and the valleys clothed in waist-deep desert grass. You might even see the rare mountain zebras on your drive.

DAY 3-4 Today you head towards the coast. Swakopmund is an old seaport founded by German colonists. Here you enjoy a relaxing coastal flair with cafés and shops, a small city museum and inviting spots to rest and saunter. Swakop offers manifold adventures, for example a desert excursion to meet the „Little Big Five“ or quad biking in the desert, a boat trip on the Atlantik Ocean or guided city tours to explore the small harbour town of former German South West Africa. Look forward to a surprise programme!

DAY 5 You drive north along the coastline of the Atlantic Ocean. Ship wrecks appear in the fog, a seal colony at Cape Cross passes by. The southern part of the Skeleton Coast National Park surprises with its moonlike surface. Today's destination is Twyfelfontein. The rocky site situated in the Kunene Region of north western Namibia contains around 2,000 rock carvings and was approved as a World Heritage Site by UNESCO.

DAY 6 After a stop at the „Petrified Forest“, a fossil national monument, you leave the bizarre mountain scenery behind and continue to another outstanding safari highlight: the Etosha National Park. You will reach the southern gate of the park in the afternoon. At a waterhole close by the lodge you may get a first glimpse of the magnificent wildlife of Namibia's savannah.

DAY 7 The bushveld around the Etosha Pan (Etosha is Ovambo and means „big, white place“ referring to the salt pan) belongs to antelopes, giraffes, zebras and a thousand more endemic species. On your tour through the park you look out for elephants, rhinos and lions, meet springboks, jacals and many other animals.

DAY 8 Your safari ends with an early morning game drive and a visit of the old Fort Namutoni. In the afternoon you will arrive at Kambaku, where more wildlife encounters are yet to come.

DESERT, LANDSCAPE & BIG 5 SAFARI

Enjoy the beauty Namibia has to offer: unique landscapes and national landmarks, places of significance to cultural history and Namibia's precious wildlife.

DETAILS

- Start: Windhoek Int. Airport
- End: Kambaku Lodge
- Duration: 6 days
- Private Safari
- Available at all time
